nearly all Google products, but your student, hartsem edu administrator may decide which products are enabled for your account. For tips about using your new account, visit our Help Center.		*
Google has made its services available to organizations using Google Apps. In addition to the core suite of messaging and collaboration applications, you may access many Google services ("Additional Services") using your firstname.lastname@student.hartsem.edu account. Your student.hartsem.edu administrator determines which Additional Services you may access using your account. For tips about using your new account, visit the Google Help Center.		
Please be aware that when you use Google services, your domain administrator will have access to your firstname.lastname@student.hartsem.edu account information, including your email. You can learn more here, or by consulting your domain administrator's privacy policy, if one exists. You can choose to maintain a separate account for your personal use of any Google services, including email. If you have multiple Google accounts, the username that appears at the upper right corner of most Google services will help you ensure that you're using the intended account.		н
The Additional Services are provided by Google to you under these terms of service and privacy policy. Certain Additional Services may also have service-specific terms. If your domain administrator enables any of the Additional Services, Google will treat your use of any of the Additional Services as acceptance of the applicable service-specific terms.		
Click "Accept" below to indicate that you understand the changes to your account and agree to the Google Terms of Service and the Google Privacy Policy for your use of Additional Services.		
Laccept. Continue to my account.		Ŧ

 If this is your first time logging into your student e-mail account you will be prompted to change your current password. The password strength indicator will show you how strong your password is.

6) To reply to message click the *Reply* arrow on the right side of the message. You may also click the down arrow to display more options such as *forward*.

 To compose a new message. Click the red *Compose* button on the right side of your screen. Enter in an e-mail address and subject. When you are through click the blue *Send* button on the bottom of your screen.

Forwarding E-mail to Another E-mail Account

1. If you would like to forward your e-mail to another account such as your personal e-mail, click the *Gear* icon on the right side of your screen and select *Settings*.

2. Under the settings menu select the tab for *Forwarding and POP/IMAP*. From here you can select the *Add a forwarding address* option.

3. Enter in the e-mail address you would like to forward the e-mail to and click Next.

 A verification e-mail will be sent to the e-mail account you would like to forward your student email to with a verification code. You must retrieve the code and enter it into the verification box before e-mail will begin forwarding.

	Save Changes Cancel

3. In addition to enabling IMAP/POP you will also need to check the configuration settings for your particular device. Click on the *Configuration Settings* link, and then select either POP or IMAP.

Get started with IMAP and POP3

+ What is POP and IMAP?
+ How much does POP and IMAP cost?
+ What's the difference between POP and IMAP?
+ How will using a mail client affect automatic replies?
Select an option below for instructions on how to enable POP or IMAP
I want to enable POP

4. Next, select your device type.

Select an option below for instructions on how to enable POP or IMAP I want to enable IMAP You can retrieve your Gmail messages with a client or device that supports IMAP, like Microsoft Outlook or Apple Mail. Enable IMAP in your Gmail settings 1. Sign in to Gmail. 2. Click the 💼 gear in the top right. 3. Select Settings. 4. Click Forwarding and POP/IMAP. 5. Select Enable IMAP. 6. Click Save Changes. Note: This setting is not available while using the basic HTML view of Gmail. To enable IMAP, use the standard view instead. Find out more about standard view and basic HTML view. Once you've enabled IMAP in your Gmail settings, you need to configure your client. Select a client below to see specific configuration instructions. O Android BlackBerry

- O iPhone, iPad, or iPod touch
- Outlook / Windows Mail
- O Apple Mail
- O Thunderbird
- O Other

5. Since the student email account is a Google Apps email address, you will need to view the specific instructions for that account type by clicking on the plus sign.

6. Each device has its own instructions, so your screen will vary from the screen shot below depending on your device type. Follow the onscreen directions and your account should start forwarding email to your mobile device.

- View instructions for Google Apps email addresses
To configure the 'Email' app on an Android device for access to Google Apps email, just follow the steps below:
On the 'Incoming server settings' page, some fields may be pre-populated. Make sure to change the following:
On the 'Outgoing server settings' page, some fields may be pre-populated. Make sure to change the following:
1. Enable IMAP in your Mail settings.
2. Open the Email application.
3. Tap and the Settings
In the top corner, tap select Next to get started with setup.
5. Enter your full Google Apps email address and password, then tap Next.
6. For 'Username,' enter your full Google Apps email address
7. Tap IMAP account.
8. Update the Incoming Settings:
a. For 'IMAP server,' enter 'imap.gmail.com'
b. For 'Port,' enter '993'
c. For 'Security type,' select 'SSL/TLS"

If you have any questions or issues with your student email account contact the Registrar's Office immediately.
